

How did you spend your Saturday mornings? If you were part of [UPS](#)' South Florida Technical Support Group (TSG) or I.E. tem, you may have been here with us, moving pallets full of food into the pantry for distribution. UPS is known for moving boxes and these folks definitely did! These smiling faces pictured here gave up a Saturday morning to help us get ready for the Thanksgiving and holiday rush by moving inventory into the pantry, stocking the shelves and lifting loads of heavy items on to the upper tiers.

Think that was all Brown could do for us? No way! Their South Florida centers have also been conducting a peanut butter drive for us and the TSG have committed to provide us with desperately needed IT support including helping us with our databases and upgrading our network infrastructure so that we can spend more time helping folks and less time trying to keep the network running.

[St Gregory the Great Catholic Parish's](#) Matthew 25 Social Justice Outreach Ministry's food drive brought in over 5,000 pounds of food. The two day drive came at a perfect time in early October when are pantry shelves were severely depleted. Thanks to all who participated and special thanks to Bob Stevenson!

[River of Grass](#) Unitarian Universalist Congregation participated in Empty Bowls, a national program to raise money for local food programs, on October 14th. Church members worked together to create clay bowls – true works of art – which were then used during a fundraiser luncheon. This year's luncheon netted \$1300 for CFP!

These other great community members joined us last month to serve in the kitchen, stock shelves, make sandwiches and just generally help make Broward County a better place!
